

The position is a government contractor position through Northrop Grumman Technical Services. The job title is "Project Manager/Engineer Support" for the United States Air Force Civil Engineering Support Agency (AFCESA). I know it states the position is engineering support to contracts but really the position is more contract administration management--but having engineering/construction management knowledge is a huge plus!

Job description:

Engineer 3

Requisition ID: 10833144

Business Sector: Technical Services

Location: United States-Hawaii-Hickam AFB

US Citizenship Required for this Position: Yes

Relocation Assistance: No relocation assistance available

Clearance Type: Secret

Number of Openings: 1

Provides engineering support to the sustainment, restoration, and modernization (S/R&M) program for Headquarters Air Force Civil Engineering Support Agency (HQ AFCESA) in the Pacific. Performs planning, programming, design and construction management work for substantial multi-phase new construction, renovation, and improvement projects for a variety of real property facilities and utility systems, utilizing professional engineering knowledge. Serves as engineering consultant on all design and construction aspects of assigned projects. Coordinates the preparation of and reviews A&E and construction statements of work (SOW). Coordinates projects with other engineers or with architects. Serves as field engineering consultant on location.

Basic Qualifications:

Minimum of 5 years engineering experience in addition to degree requirements

Detailed knowledge and experience of 1 or more phases of the facilities infrastructure (engineering/architecture)

Strong interpersonal skills supportive of a customer service-oriented environment

Experience in all MS office products

Project Management experience

Preferred Qualifications:

PE/RA/PG

Experience in cost estimating for facility / utility construction and for AE services

Experience with DoD or Government construction

Facility / Utility engineering experience in design, construction, operations, or maintenance

Company Description:
